Hints and Tips Unit 6

The information in this guide will be helpful to you when you are ready to complete your assessment for the following unit:

Unit 6: Working with others in cyber security

Section 1 – Understand team working for cyber security

Q1. In the box below, describe what is meant by **team dynamics**.

This question is quite straightforward. You simply need to describe what team dynamics are. Think about dynamics in working relationships within the team and also how peoples personalities within a team can affect team dynamics.

Q2. In the box below, compare the benefits of working with others to working alone.

For this question you simply need to think about what benefits working alone and working with others can have and compare the two.

Q3. In the box below, **describe** ways in which team members can work together to make use of individual strengths.

This is a describe question so try to provide good detail in your answer. How do you make effective use of peoples individuals strengths when working together.

Q4. In the box below, **identify** ways to resolve conflict within a team.

This is an identify question so you only need to list your responses. Try to list as many different ways as possible to demonstrate understanding.

Q5. In the box below, **explain** how reviewing work activities can support effective teamwork.

This is an explain question so try to be as detailed as possible in your response. Think about reviewing work task or projects and how this can be used to support effective teamwork.

Section 2 – Understand the use of interpersonal skills for working in cyber security

Q1. Identify a range of **interpersonal skills** used when working in cyber security.

This is an identify question so you can just list your response. Try to provide as many different interpersonal skills as you can.

Q2. In the table below, give three **examples** of when different interpersonal skills might be used when working in cyber security.

You should use your answer for question 1 to assist you with this. Select at least three of the skills you identified and explain how these skills are used in cyber security.

Q3. In the box below, **describe** how working with others within an organisation can support cyber security. [3.3]

This question is a describe question so try to provide good detail in your response. For others think about; other teams, sections or departments within an organisation.

Section 3 – Understand types of written communications used in cyber security

- Q1.** In the box below, **explain** the purpose of **written communications** used in cyber security.

This is an explain question so try to provide good detail in your response. Think about the specific types of written communication that are used within cyber security. Why are they used, what do they do?

- Q2.** In the box below, identify the potential audience for the written communications used.

This is an identify question so you can just list your responses. Think about who within the organisation would need to be communicated to.

- Q3.** Identify the type of information that may be included in a written communication.

This is another identify question so you can just list your responses. You should use your answer for question 1 for guidance and select one of the written communication types and then provide details of what information it would include.

- Q4.** In the table below, give **examples** of elements that support effective written communication.

For this question you need to focus on the various elements that you need to think about when providing written communication to others. Think about clarity, accuracy, attention to detail, spelling and grammar, layout.
