Hints and Tips Unit 5

The information in this guide will be helpful to you when you are ready to complete your assessment for the following unit:

Unit 5 - Understand how to support children and young people with mental health concerns

Session 1 – Understand the impact mental health concerns can have on children and young people

Q1. In the box below, **explain** what is meant by **person-centred** support for children and young people. [1.1]

For this question you need to explain exactly what person centred support is. There are four slides on page 2 of session 1 as well as the video which you should use to help formulate your answer. Make sure that you consider the key principles, person centred practice, working together and considering desires in your response.

Q2. In the box below, **describe** the recovery model which applies to children and young people with mental health concerns. [1.2]

For this question you simply need to describe the recovery model? what is it? How does it apply to children and young people with mental health concerns?.

Q3. In the table below, give **examples** of how the rights of a child or young person with mental health concerns can be upheld. [1.3]

You need to give examples in your response for this question so you should use the video and your own research to assist you with your response, things to consider are human rights, confidentiality, safeguarding, management of their own mental health and access to intervention therapies.

Q4. In the table below, **identify** strategies that can be used to support a child or young person experiencing mental health concerns. [1.4]

As this is an identify question you simply need to list the different strategies that can be put in place to support children and young people. the reveals on page 3 of session 1 contain useful information relating to this but you may want to use your own research/experience when formulating your answer.

Session 2 – Understand how to support children and young people with mental health concerns

Q1. In the box below, **describe** ways in which a calm and nurturing environment can be created to promote the well-being of children and young people [2.1]

For this question you need to consider at least two ways that a calm and nurturing environment can be created to promote well-being. Think about what a calm and nurturing environment is? How can it be created? How will it be of benefit? Think about the role of adults in promoting a positive environment.

Q2. In the box below, **describe** how to promote interactions between children and young people and others to develop their well-being [2.2.]

For this question think about what positive interaction are. Things to consider when formulating your answer are respect, openness, being non-judgemental. Maintaining boundaries.

Q3. In the box below, **describe** how to respond to behaviour and lifestyle choices in a way that respects a child's or young person's self-esteem [2.3]

For this question you should use your learning from session 2 page 2 and consider the different ways that you can respond which will show respect for the child or young person.

Q4. In the box below, **describe** how to support children and young people to express their emotions and concerns within a safe environment [2.4]

For this question you need consider different ways that you can provide support that will enable children to express themselves while feeling safe. You should use the video on page 1 of session 2 to assist with this but you may also want to carry out your own research.

Session 3 – Understand the importance of being diagnosed with a mental health problem

Q1. In the table below, **identify** a range of services and professionals involved in supporting children and young people's mental health. [3.1]

For this question you simply need to list the range of service and professions that can be involved in supporting children and young people. Several examples are given in the course materials but you may also know of other services which you could include in your response.

Q2. In the box below, **explain** the importance of early intervention, support and treatment. [3.2]

For this question you need to explain what benefits that early intervention, support and treatment can have. You should also consider what the consequences of this not happening can be.

Q3. In the box below, **outline** what is meant by 'Care Programme Approach' (CPA). [3.3]

For this question you simply need to give an outline of what "CPA" is. What does it mean? What will it do?

Q4. In the box below, **identify** therapies that could be used to treat a child or young person experiencing mental health problems. [3.4]

This is an identify question so you should list the different therapies that can be used. There are examples given in the course materials but you may also want to carry out research and see if there are other therapies that aren't mentioned.

Q5. In the box below, **identify** types of medication used to treat children and young people experiencing mental health problems. [3.5]

This is another identify question so you simply need to list the different types of medication that are used. As with question 4 you may want to carry out additional research to identify other medications than the ones mentioned in the course materials.
