April - July 2019 Financial Report

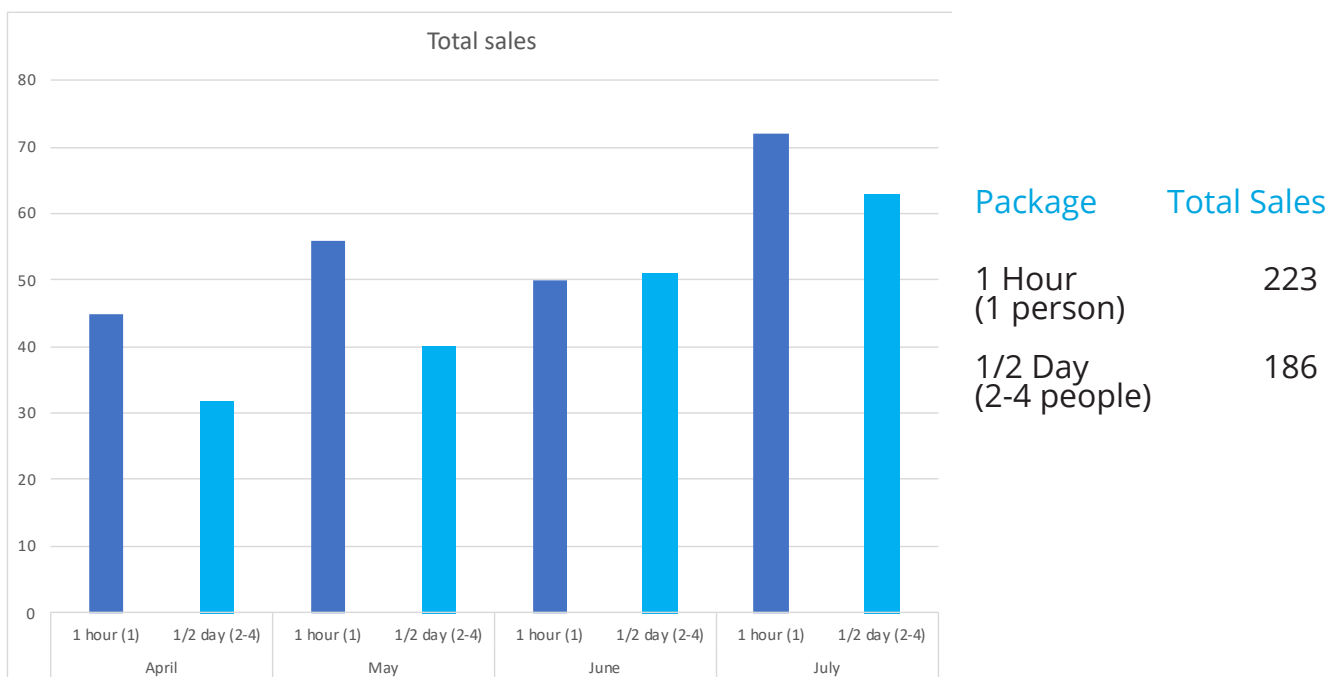

Overview

Generally, the results of the April – July 2019 financial report are positive. There has been a 6% increase on sales from the last quarter, and our one hour and half day packages continue to meet or exceed their sales targets. However, following the same trend as last quarter, the sale of our deluxe package has continued to drop. It is now clear that this is not an isolated incident, and that the marketing and sales techniques used in the retail of these items needs to be reassessed.

Top packages

The one hour package for one person continue to be our top seller, with 223 being sold in this quarter. The half day package for two to four people also continue to sell well, and there has been a 10% increase compared to this time last year.
