

Choosing the right information

Take a look at the following [formal](#) document - [a financial report](#). Do you think it is fit for purpose and its audience?

The Fruit and Veggie People

April – July 2019 Financial Report

Overview

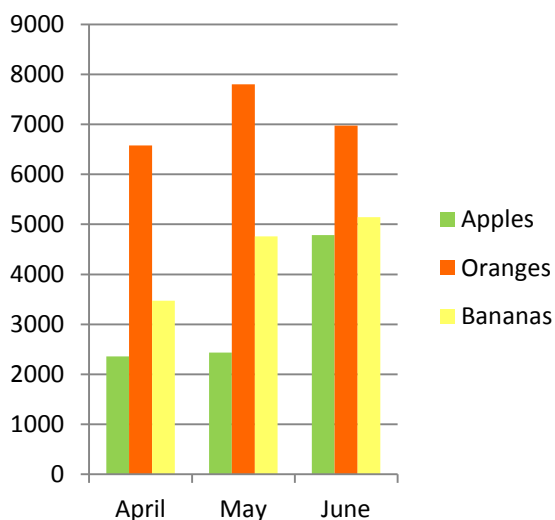

Generally, the results of the April – July 2019 financial report are positive. There has been a **6% increase on sales** from the last quarter, and our top sellers (apples, oranges and bananas) continue to meet or exceed their sales targets.

However, following the same trend as last quarter, the sale of pineapple and mango fruits has continued to drop. It is now clear that this is not an isolated incident, and that the marketing and sales techniques used in the retail of these items needs to be reassessed.

Top sellers

Apples, bananas and oranges continue to be our top sellers, with **21,349** oranges being sold in this quarter. Apples and bananas also continue to sell well, and there has been a **10%** increase in the sale of apples compared to this time last year.

Graph showing top sellers April – July 2019

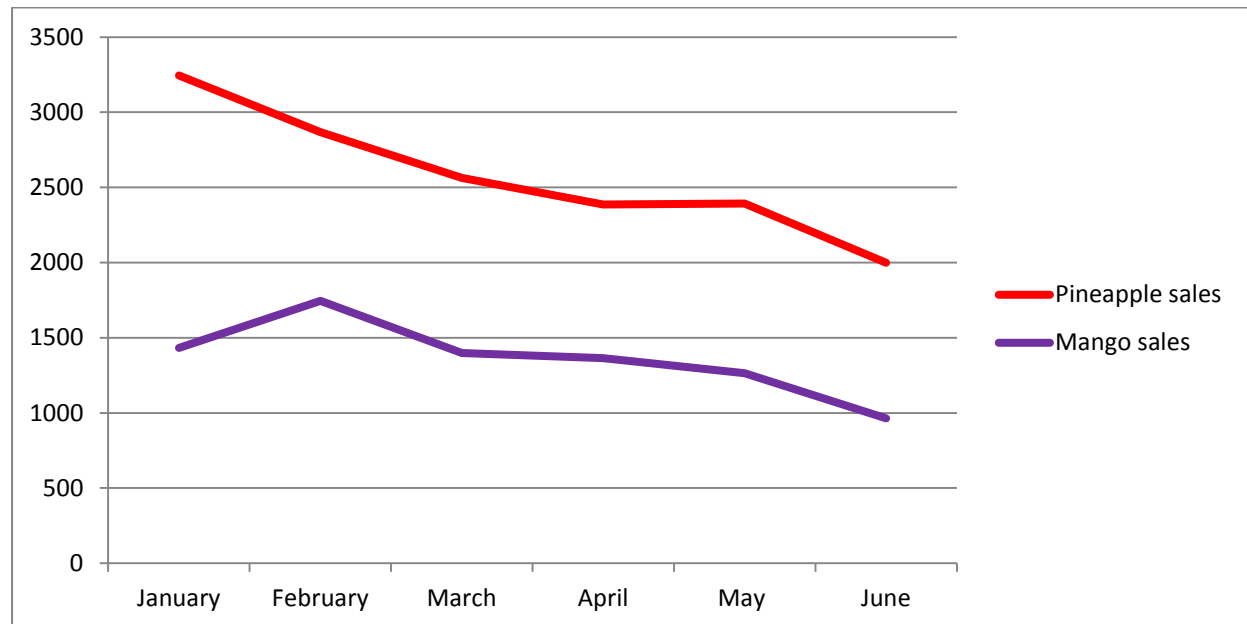

Fruit	Total Sales
Apples	9,576
Oranges	21,349
Bananas	13,373

Problem products

Sales of pineapple and mango fruits continue to drop. The marketing and sales techniques surrounding these products need to be reassessed.

Graph showing drop in sales January – June 2019

Conclusion

Overall the business is doing well and sales are increasing by 6% every year; however we need to reassess the sales and marketing techniques used to sell pineapples and mangos.
