Hints and Tips Unit 4

The information in this guide will be helpful to you when you are ready to complete your assessment for the following unit:

Unit four: Principles of supporting change in a business environment

Section 1 – Why change happens

Q1. Explain why change happens in a business environment. You should include at least three reasons in your answer.

You need to explain why change happens within a business. As well as the course materials, a useful resource to help answer this question can be found at <http://www.businessballs.com/pestanalysisfreetemplate.htm>.

Section 2 – Supporting change

Q1. Identify the main reasons for reviewing working methods, products and / or services in a business environment.

Areas that need to be considered for this question include looking at the impact that reviewing work methods could have on how you operate in your job. Could this result in the business offering different products or services?

Q2. When a business is going through change:

a) Describe the different types of support that people may need.

When a business is going through change, think about the sort of support employees might need and how this will help them.

b) Explain the benefits of working with others.

For this part you need to consider the advantages that working in a team may bring and the possible consequences of not working as part of a team, especially when a business is going through changes.

Section 3 – Dealing with problems

Q1. What are the main types of problems that may occur when supporting a business event? You should include at least three different types of problems in your answer.

Three types of problems can occur whilst holding a business event. You need to include one example of each problem in your answer.

Q2. Identify possible solutions for each of the problems you have listed in Question 1 above.

For the three examples you have given in Question 1, you need to outline specific solutions of how you would overcome each problem.
